

## THE ROUSING TRANSLATION OF THE LIGHTING

*North Enclave Penthouse Master Suite*

Los Cabos boasts plentiful sunshine days which provide long periods of time with natural daylight throughout the year. During summer the days last around 13 hours while the winter grants roughly 11 hours of luminosity.

The completely detail-oriented design featured in every Reserve Residence, benefits from the natural light and provides a marvelous lighting spectacle inside your private retreat as the dazzling contrasts of the desert turns its colors.

*West Enclave Master Suite*

The integration of the materials and colors allows the lighting to delimitate spaces, create new ones, transmit sensations and even enhance some areas of your private retreat.

Light plays a fundamental role with the senses both during the day and at night and becomes a strong ally to define the mood and the environment.

The exquisite lighting curation provided at The Enclaves, A Ritz-Carlton Reserve Residence, is capable of creating idyllic atmospheres, bestowing warm and comfortable touches that boost the coziness of each home.
